

SweetVeg project

Campden BRI Day took place on the 7th of June, 2017 in Chipping Campden, UK.

This was the annual open day of Campden BRI for clients, members and key personnel from within the food, drink and associated industries and government. The theme for this year's event focused on helping business to succeed and the following four areas were covered: Food and Drink Safety; Product Quality; Nutrition and Health; Skills and Knowledge. There was an opportunity to view our pilot plant facilities and 3 briefing sessions will be held covering imaging technology, global regulatory differences and metagenomics.

Heather Hancock, Chair of the FSA delivered the thirty ninth annual Campden Lecture. More than 500 industry representatives attended on the event.

Campden BRI Hungary had its own stand to promote the projects of the company, including SweetVeg.
